

Instituto Latinoamericano del Pollo (ILP)

PRODUCCION DE POLLO, RENDIMIENTO Y CRECIMIENTO ECONOMICO DE AMERICA LATINA Y EL CARIBE

- El presente documento contiene estadísticas actualizadas sobre la producción de carne de pollo: número de aves sacrificadas, rendimiento en carcasa y datos de crecimiento económico (PIB) de América Latina, el Caribe, Estados Unidos de América y Canadá. También incluye datos de los demás continentes del mundo concerniente a la producción de carne de pollo.
- Los datos de producción han sido recopiladas y analizadas por el Instituto Latinoamericano del Pollo (ILP); la fuente de información primaria son las publicaciones de la FAO e información del Departamento de Agricultura de los Estados Unidos de América, entre otros. Cuadros del No.1 al No.10.
- El dato del número de aves sacrificadas corresponde a datos oficiales proporcionados por los gobiernos a la FAO, y análisis cruzado con los informes Outlook de USA. Cuadro No. 11.
- Los datos de rendimiento tienen la misma fuente que el párrafo anterior, con el llamado / aclaración que no son datos comparables entre países debido a la tecnología utilizada por los gremios: días de crecimiento, engorde, raza, alimentación, etc. Cuadro No. 12.
- El periodo analizado parte del año 2002 hasta el 2017. Los datos observados corresponden hasta el 2016, es decir, cifras revisadas y ajustados a la situación reportadas por los países con datos oficiales. Los datos de 2017 y las estimaciones del 2018 son experimentales o simulados por el ILP, considerando la tendencia y las perspectivas que se observan para cada país según diferentes medios de publicación y aportes de los gremiales miembros de la Asociación Latinoamericana de Avicultura (ALA).
- Los datos de crecimiento económico (PIB) han sido obtenidos del Fondo Monetario Internacional (FMI), de su última publicación: Perspectivas de la Economía Mundial: Actualización - enero de 2018. Datos observados hasta el 2017 y proyectados a partir del periodo 2018 hasta el 2022. Tabla No. 13.
